McLarens

Casualty

McLarens' Australian Casualty team delivers specialist liability claims management supported by decades of Executive Loss Adjuster experience across complex and high-exposure matters. Our approach is grounded in structured investigation, sound policy analysis and clear reporting.

Working closely with insurers, insureds and legal representatives, we investigate the circumstances of each loss, assess liability exposures and provide evidence-based insights to support claims management and resolution strategies. While our methodology is consistent, our handling is never formulaic — each matter is assessed on its own factual, legal and commercial merits. Complex liability exposures often require thoughtful, and occasionally innovative, solutions delivered within a disciplined framework.
