BIOGRAPHY

In 1999, Timothy began his career as an independent adjuster for Warlaw Claims Services. In 2003, Timothy went to work at Allstate Insurance in San Antonio, handling the investigation and adjustment of residential claims and serving as the Roofing Claims Team Lead adjuster for South Texas. While at Allstate, he developed a training program for roof damage assessment and proper roof inspection guidelines.

Venturing back into independent adjusting in 2004, Timothy handled the evaluation of simple to complex property claims and small commercial claims, as well as farm and ranch claims. In September of 2006, Timothy went to work for GAB Robins as a Supervising Adjuster over the San Antonio and Austin, Texas market areas. In 2010, GAB promoted him to a Regional General Adjuster. In December of 2011, he joined the firm of Engle Martin and Associates as a National General Adjuster.

In 2014, Timothy joined McLarens as an Executive General Adjuster. Having acquired a stellar reputation for providing expert level analysis, investigation, claims management, favorable resolutions, and fair/equitable settlements for national and international clients makes him a valuable asset to the Houston McLarens branch.
