BIOGRAPHY

John Cox joined McLarens in 2017 after a six-year tenure in the Petrochemical Industry. In this position he gained familiarity with Refining, Material Handling and Rail Operations. In his role as a Safety and Training Specialist he analyzed and implemented procedures and processed to ensure compliance. Previously he served with the United States Marine Corps.

John was part of the with catastrophe response team at McLarens for both Hurricane Harvey (2017) and Michael (2018). John manages the account for a large fast food restaurant chain.

As a certified drone pilot, he brings extensive experience and expertise for roof inspections, property condition overview, and other inspections relating to real estate, real estate appraisal, claim appraisal, flood & fire damage and storm/hurricane/tornado damage.

John has assisted with the evaluation and investigation of subrogation on a hotel collapse loss due to a construction defect.
