### BIOGRAPHY

Adam is an executive technology leader with hands-on experience in transforming IT and a strong record of success creating robust IT application architectures and infrastructure platforms. In his new role at McLaren, Adam will take over the broad leadership of our IT organisation, supporting day-to-day operations, infrastructure, the McLaren's One team, and working on expanding our overall IT roadmap.

Adam Weiner has over 20 years of experience in Data Center, Infrastructure, IT Operations, Security, and Application Development with hands-on IT transformation experience in Data Center and Cloud Computing Strategy, Data Center Migrations, M&A Due Diligence and Integration, Managed Service Delivery models, Cost Containment, and IT Governance and Financial Controls.
