Catastrophe events

BIOGRAPHY

Roberto joined McLarens in 2018 to lead the Natural Resources department in Latin America. He has worked in Latin America for over 25 years, starting as an offshore energy adjuster during Hurricane Andrew (1992) and developed his knowledge and career into more senior roles by advancing through many prominent energy adjusting firms. He has been actively involved in large loss offshore claims in the USGOM, as well as with catastrophes and onshore / offshore incidents in Latin America to include Upstream (blowouts etc.), Midstream (PD to pumping / reduction stations, etc.), Downstream (PD in refineries, tank farms, loading docks, buoys, etc.). construction, business interruption, etc.
