Middle East Energy

Tailored solutions for energy portfolios

Lloyd Warwick International (LWI), a McLarens Company, are loss adjusting and claims management specialists serving the global insurance market from London, Paris, Houston, New York, Johannesburg, United Arab Emirates, Singapore, Perth and Sydney. We concentrate on losses originating in the energy, marine, and special risks markets.

The energy industry is a diverse and complex field that demands specialised expertise. LWI's professional team serving the Middle East is able to provide a complete claims service, detailed technical investigations and adjustment of energy losses.

LWI is an established adjuster and a part of the McLarens Natural Resources Group which provides access to local adjusters and surveyors throughout the Middle East.

LWI Middle East is pleased to service the global markets for energy losses in the Middle East. With the wider McLarens office network available to us, we have local support throughout the MENA region.

– **Spencer Clark**
General Manager & Director
LWI Middle East

- Onshore
- Petrochemical
- Offshore Marine
- Power Generation
- LNG Plants
- Distribution
- Subsea Equipment

Support from McLarens Group in Middle East

Following the acquisition of LWI by McLarens in June 2020, the global team of specialist adjusters has continued to grow, providing international markets with technical, engineering, PD, BI, ICOW, LOH, major claims management, root cause investigations, litigation support, and arbitration & mediation services.

In the Middle East, experienced licensed adjusters working for regional McLarens offices can support LWI's energy claim investigations, including attending surveys, meetings, and Arabic translations, on an as needed basis. Having 'our own company boots on the ground' is important now due to international and domestic travel challenges.

McLarens have locally licenced adjusters in the United Arab Emirates, Kingdom of Saudi Arabia, Qatar, Bahrain, and Lebanon with support from associated companies in Kuwait, Iraq, Yemen, Pakistan and India.

McLarens Aviation has specific technical expertise and resources to assist with gas turbine losses, surveys, root cause investigations and repairs.
