BIOGRAPHY

Danie joined McLarens in 2008 following 17 years with multi-national adjusting firms in South Africa and New Zealand. He is highly experienced in dealing with large losses and has built a solid reputation for progressing complex claims through their most challenging stages.

During the Canterbury Earthquakes of 2010-2011, Danie was the lead adjuster on a large volume of major earthquake claims and led a team handling over 400 cases, entailing a complex range of Material Damage and Business Interruption issues due to incurring damage from multiple events.

Danie has managed large and complex losses in South Africa, New Zealand and the Pacific Islands using his skills to streamline claims through balancing sound technical skills with a commercially sensible and pragmatic approach.
