

## Construction & Engineering

McLarens Hong Kong was the first McLarens office in Asia. We have been the leading international adjuster in Hong Kong for more than 30 years. We provide comprehensive claims management services across all major lines of business, including Construction & Engineering.

Our construction and engineering team is comprised of specialists with a wealth of technical knowledge, all of whom have spent time in the industry before transitioning to loss adjusting. Their excellent track record of handling complex losses has allowed us to secure nominations for contractors' annual CAR programmes and large-scale development projects including railways, bridges, tunnels, foundations, and high-rise buildings.

We can assemble and deploy a rapid response team to manage a variety of claims.

Our services include loss adjusting, survey/risk assessments, and pre-loss claims handling.

### Our specialist expertise covers:

- Construction & Erection All Risk (CAR/EAR)
