ADDITIONAL EXPERTISE

Subsea Equipment and Infrastructure, Subsea Installation and Operations, Subsea Installation Equipment, Subsea ROV Equipment, Subsea Engineering, Operational Project Management, Manufacturing Project Management

BIOGRAPHY

Michael graduated from the University of Houston with a B.S. in Mechanical Engineering Technology. Prior to joining Lloyd Warwick International, he worked for over fifteen years at several industry leading Subsea Service providers in both Engineering and Project related roles delivering Subsea Installation Service and Equipment to Major Operators around the world, including the GOM and International roles in Canada and Nigeria.

Following his role as an International Subsea Installation Engineer, Michael spent the following years in Project Management delivering Subsea Completions, Controls, New and Refurbished Subsea Equipment, Site Integration Testing, and Offshore Operational Support and Tooling for Major Projects in the GOM.

Michael brings years of proven technical experience in Subsea Engineering, Local and International Offshore Operations, and Project Management within the oil and gas industry to the team.
