ADJUSTER EXPERIENCE

14 years

BIOGRAPHY

After obtaining his Bachelor's degree from the Civil Aviation University of China, Dennis entered the aviation industry where he gained extensive experience on narrow and wide body aircraft operated by Cathay Pacific Airways and Hong Kong Dragon Airlines while obtaining his HKAR-66 license. Aside from line maintenance, Dennis is also familiar with base maintenance, having completed a stint at Hong Kong Aircraft Engineering Company (HAECO). Prior to joining McLarens Aviation as an Aviation Surveyor, Dennis was employed by Embraer S.A. in Beijing as a Field Service Engineer, supporting operators of regional and business jet aircraft. Dennis, a native Mandarin speaker, is also fluent in English and obtained his FAA A&P and CCAR-66 licenses through self-study. Since 2015 Dennis has handled numerous business jet, airport liability and general aviation losses on behalf of London and local reinsurance market in China, Dennis is based in Beijing, China.
