ADJUSTER EXPERIENCE

24 Years

BIOGRAPHY

A second-generation adjuster, Mike began his career in 1999. From 2013 to 2020, he was a National General Adjuster for Vericlim/Sedgwick. Prior to 2013, he owned and operated a successful boutique firm serving the region before taking a position with a national adjusting firm and opening their San Diego office.

Mike has considerable claims handling experience across a wide spectrum of residential and commercial exposures. While his primary focus is on large and complex commercial property claims, Mike was trained as a multi-line adjuster with acumen extending to the casualty/liability arena.

Mike routinely handles multi-million dollar claim exposures, is presently focused on designated adjuster account management, and is eager to assist clients in any desired fashion.
