Marine Team Profile

McLarens
Indonesia
Marine

Capabilities

Marine & Transit losses often come with their own peculiar challenges, from locating and assessing damaged property to managing the differing interests of insurers, insured and manufacturers.

McLarens has a long-standing reputation as a global adjusting firm including our marine and transportation specialists, providing specialized global cargo services.

Marine at McLarens Indonesia

Since 1991 when we established our current Indonesian operations, Marine and Transit have been part of our services and have grown significantly, catering to both global accounts and the local market.

Global Claims Services

McLarens International is the only employee-owned claims service provider with an integrated worldwide office network.

Scope of Services

Our services encompass:

- Loading / Unloading / Tally Surveys
- Hull and Machinery Claims
- Adjustment of Cargo Claims
- Outturn Surveys
- Preshipment Surveys
- Shop Condition Surveys
- Project Cargoes
- Marine Liability
- Port & Terminal Liability
- Recoveries – in cooperation with W.E. COX
- Shipyard Risk Management

Budi Maharesi Dipl CII, ICAP, FCLA
PRESIDENT DIRECTOR / EXECUTIVE ADJUSTER

+62 (0) 816 82 0517 | budi.maharesi@mclarens.com

Budi is a German trained Mechanical Engineer with particular expertise in machinery losses, as well as having considerable experience in property losses. He also acquired expertise in the Oil and Gas sector working for Schlumberger South East Asia and in the mining industry having worked for Caterpillar Authorised Dealer in Indonesia assigned at Freeport McMoran in Papua before he joined PTMI in 1993. He has developed a specialist team of mechanical engineers and qualified mechanics handling Heavy Equipment losses, frequently in remote areas of Indonesia, such as very large mining, logging, agricultural and industrial equipment as well as various kinds of material handling equipment.

Budi started his career at PTMI as Loss Adjuster prior to his promotion as Manager in 2000, Operations Director in 2004 and President Director / Country Manager from 2014 to the present.

Budi attained a Diploma CII as well as Diploma of Loss Adjusting from ANZIIF (Australian and New Zealand Institute of Insurance and Finance) and is a Fellow of ANZIIF, AICLA (Australasian Institute of Chartered Loss Adjusters), Chartered Loss Adjusters, and IFAA (International Federation Adjusting Association). Nationally, He is an Indonesian Certified Adjusting Practitioner (ICAP) and an AMRP (Indonesian Insurance Risk Management Expert) of the Indonesian Insurance Institute. He is the immediate past President of APKAI (The Association of Indonesian Insurance Adjuster 2011 - 2019), the Vice Chairman of the Indonesian Insurance Council as well as the past Deputy President and past Chairman of the International Division of AICLA, Australia.

Throughout his career, he has attended all provinces in Indonesia for practically all kinds of claims, as well as business sectors. He attended hundreds of courses, workshops, seminars, conferences either as participants or speakers. He also attended several times in a tribunal or arbitrations as either fact witness or expert witness within the insurance disputes.

In the early years at McLaren's, he handled various marine cargo claims for projects, loading and unloading survey for a number of large projects in Indonesia, for example, Chandra Asri Petrochemical, Pertamina Balongan Refinery, PLN Suralaya coal fired power plant, PLN Tanjung Priok combined cycle power plant, and various damage survey and adjustment of industrial machinery, rotating equipment and heavy equipment.

Zainal Abidin Nav Arch, MBA, ICAP, ANZIIF (Fellow), CIP

MARINE MANAGER

+62 (0) 8129145939 | zainal.abidin@mclarens.com

Zainal graduated from the Naval Architecture Faculty of the University of Hasanuddin in Makassar, Sulawesi. He obtained a scholarship for ship production from Kvaerner Masa Yards, Finland, and was also awarded a diploma degree from the Finnish Institute for International Trade (FINTRA), Finnish Employer's Management Development Institute (FEMDI) during his stay in Finland.

On his return to Indonesia he continued his post graduate studies and holds a Masters degree in Business Administration from the University of Indonesia, Jakarta, majoring in Logistics and Supply Chain Management. In 2008, he was qualified as a Fellow of the Australian and New Zealand Institute of Insurance and Finance (ANZIIF), and obtained a Certified Insurance Professional (CIP) qualification from the same organization. He also holds an Indonesian Certified Adjusting Practitioner (ICAP – Marine path) qualification from the regulator's certified qualification body and Indonesian Adjusters Association.

Zainal commenced his career in the Directorate General of Sea and Land Transportation of the Ministry of Transportation Republic of Indonesia. He was subsequently employed as a Ferry Manager before he joined a leading insurance broker associated with Gallagher Group, where he worked as a Marine Risk Engineer.

He carried out risk assessments, handling of marine cargo and marine hull claims, P & I liaison for ship assessment, loading and unloading surveys and prepared reports, logistics, supply chain, transportation audit and warehouse management advice to their clients.

In addition to his management role, Zainal is actively involved with surveys, and adjustment of Hull and Machinery, Marine Cargo, Outturn Surveys, Preshipment Surveys, Ship Condition Surveys, Salvage, Project Cargoes, Recoveries and Shipyard Risk Management. He attended a range of marine training seminars locally and regionally.

Zainal attained the following professional certifications:

- Internal Auditor ISM-Code from Indonesian Classification Bureau (BKI)
- Internal Auditor Quality Management System from Indonesian Classification Bureau (BKI)
- Owner Surveyor from Indonesian Classification Bureau (BKI)
- Ship Stability from Japan International Cooperation Agency (JICA)
- High Speed Craft Regulation from Directorate of Sea Transportation
