Marine & Cargo

ADJUSTER EXPERIENCE

23 years

BIOGRAPHY

Started as a personal lines Broker in 2000, selling home, auto, travel and motorcycle/ATV/Snowmobile policies. From there went onto become an Agent for a National Insurer. While at that National Insurer started a claims adjusting career and eventually started working for an independent adjusting firm. Initially started on the National Retailer's CGL team and once my adjusting license was obtained, handled 4 different Municipal accounts for both Property and Liability claims. Was drafted to a large loss unit while at an IA firm in 2012. In 2016 worked in the UK as part of a large loss CAT response team.
