Construction & Engineering

BIOGRAPHY

Yu-Hsin Tsai began his engineering career at APEX engineering corp. in 1996 in Taiwan where he was trained and qualified as a site engineer. In addition to developing his technical skills, which included establishing himself in multiple construction projects for airports, oil refinery plants, gas distribution plants, waste water plants, clean rooms, and power plants, etc. within Taiwan area, Yu-Hsin also held several director positions supervising and instructing constructions of multiple public civil projects developed by Taiwanese government.

Yu-Hsin participated in Great Changhua offshore windfarm phase 1 demonstration project in 2020 as a mechanical site engineer, instructing turbine equipment assembly, installation, commissioning and site constructions before handing over to the developers and taking a lead role in a number of power plant construction projects.

In 2021, Yu-Hsin joined GE taking the responsibility as a Permit To Work and Turn Over Package engineer and helping in constructions and expansion for Taipower Chia-Hui and Da-Tan power plants. He has now joined McLarens Taiwan as a Construction Project Manager, dealing with CAR/EAR, Property Loss, Renewable energy, and power plant related loss claims.

QUALIFICATIONS

- Mechanical engineering of National Taipei Industry of Technology, 1994

INDUSTRY CERTIFICATION

- A species of Lao Wei business executives, confined space operations director, emergency personnel.

ADJUSTER EXPERIENCE

27 Years

ADDITIONAL EXPERTISE

2002 -2004

BOPP and BOPA produce- Director of Production department

2004-2006

Shinkong BOPE line clean room, Taoyuan- clean room site engineer

2006-2009

REX-chip (Micron) city and drinking water system- Site Director
The Fourth Sulfur Plant of Dalin Plant- Director of pipe construction

2009-2011

Repair and maintenance of electrostatic precipitators in power plant.
Hoping Power plant, Hualien country, Formosa Mai-Liao, Lin-Kou, Formosa Lin-Yuan, TSRC, CIMA cement plant NSCI Group Malaysia, Lafarge cement plant in Malaysia and Langkawi, SCG Group in Thailand, TSIP in Singapore, Kampot in Cambodia. - Site Director

2012-2015

Xin-Zhuang pump station & Miaoli pumping stations- Site Director

2015-2020

Taiwan power company Lin-Kou power plant- Turbine Commissioning engineer

2020-2020

Miaoli Tri chemical & JDN/Hitachi Taiwan power company offshore windfarm phase 1 project-demonstration- Mechanical site engineer

2020-2021

Chia-Hui Power Corp. Phase 2 expansion- Permit To Work Engineer for commissioning
TPC Da-Tan power plant - Turn Over Package Engineer for commissioning
