BIOGRAPHY

Bill has been with McLarens Aviation since 1999. He is an aircraft maintenance engineer who has gained much experience on turbo prop and jet aircraft with both regional and international airlines in North America. He has also acted as an Airline Claims Manager for a major Airline which included investigation of incidents. With McLarens Aviation, Bill's role has included all aspects of claims handling, plus involvement in various Risk Management projects, aircraft condition and records inspections. He was promoted from Vice President to Regional Manager – USA in 2015.
