### BIOGRAPHY

Joshua graduated from Norwich University In 2016, MBA in Construction Management, and 2012, BS in Engineering Management. With over 10 years of experience in the construction and building consulting industry, Joshua is an experienced complex claims handler with a wealth of knowledge in assessing and investigating complex insurance claims. Joshua's construction and consulting background spans across multiple sectors including industrial, manufacturing, utility, heavy civil, healthcare, and chemical processing, which provides him with a diverse range of ability. Joshua is experience in commercial property valuation, complex property claims, and catastrophe response claims, allowing him to work efficiently and effectively in high-pressure situations. Additionally, Joshua has leadership training and military experience that has instilled in him a strong work ethic, diligence, and a determination to succeed.

With an MBA focused on Construction Management, Joshua has a deep understanding of the industry, enabling him to effectively manage projects and teams to deliver results. In addition to his Construction Management experience, Joshua has also accumulated many years of experience in facilities maintenance project management. Through this work, he gained a deep understanding of the importance of supporting operations by maintaining facilities, ensuring they operate effectively and efficiently. His experience in facilities management has allowed him to collaborate closely with clients, contractors, and vendors to understand the requirements necessary to keep facilities running at peak levels.

### QUALIFICATIONS

Hazardous Waste Operations and Emergency Response Training

### INDUSTRY CERTIFICATION

American Institute of Constructors, OSHA 30 Hour - 11-900221901, Heavy Equipment & Vehicle Operator (US Dept. of the Army), Sling Load Inspector Certification (US Dept. of the Army)
