

A large, detailed photograph of an aircraft engine mounted on a fuselage in a hangar. The engine's fan is prominent, and the surrounding structure is metallic and industrial. The background shows the interior of a hangar with various equipment and structural elements.

McLarens Aviation

Global Reach

Our Global Reach

Overview & History

McLarens Aviation is the specialist aviation division of global claims services provider, McLarens.

With nearly 60 years of experience serving the aviation and insurance industries, McLarens Aviation provides unparalleled Claims, Asset and Risk Management services to the global aviation industry.

With an unrivalled network of offices worldwide, we provide market-leading support and levels of professionalism and care whenever and wherever an aviation loss occurs. Our Claims management team handle in excess of 4,000 insurance-related assignments each year.

Our Asset Management team includes dedicated in-house project managers and specialists providing a bespoke service to the finance and leasing sectors.

In addition to our Claims and Asset Management services, McLarens Aviation is also an established provider of Risk Management services.
