

A scenic photograph of a city skyline at sunset. The sky is filled with warm, golden light and scattered clouds. In the foreground, a dense forest of green trees sits on a hillside overlooking a calm body of water. The water reflects the colors of the sky and the silhouettes of the buildings. The overall mood is peaceful and vibrant. A blue diagonal graphic element is overlaid on the bottom left corner of the image.

## Capabilities

McLarens

# Quality is at the heart of McLarens

McLarens is trusted by clients worldwide to deliver the best in claims management, from loss adjusting and auditing services, to pre-risk and damage surveying. Throughout our extensive global presence, our reputation for quality is built on the expertise and local knowledge of our stable teams of loss adjusters, each directed by market-leading figures.

## Local Expertise

McLarens service locations in North America are strategically located to respond rapidly to clients at any time. With the resources of its integrated global network, McLarens is committed to providing quality services to local insurance markets and its customers. We have experience and technical expertise in each of our specialties, with a combination of local and regional specialists managing complex losses, whether these involve Builder's Risk, Construction Defect, Machinery Breakdown, or Power & Energy for example.

### Clients choose McLarens for three reasons:

- Responsiveness
- Quality of work
- Proactive approach
