7 Years

BIOGRAPHY

Daniel graduated from Guangzhou Urban Construction Vocational College in 2011, majoring in construction engineering technology; he continued his education in 2012 and graduated from Guangdong University of Technology in 2014, majoring in civil engineering.

From 2011 to 2017, he worked as a site supervisor for a Guangzhou-based construction engineering supervision company, where he was involved in the construction supervision of a number of large-scale construction projects and accumulated a great deal of engineering expertise.

Daniel joined McLarens in December 2017 as an adjuster in the construction and engineering insurance department.
