ADJUSTER EXPERIENCE

27 Years

BIOGRAPHY

Sean has been handling claims since 1996. He began his career with Safeco Insurance as a Property Claims Representative. In 2000, he then moved on to the independent adjusting side of the industry and took a position as a multi-lines adjuster with Jim Buckley and Associates (JBA).

In 2008, Sean then took a position as a General Adjuster with Fireman's Fund and went on to handle large losses for personal and commercial lines. After a brief hiatus as an Estimator and Project Manager with a local general contractor in Southern California, Sean accepted a position with Cunningham Lindsey/Sedgwick in 2015.

While there, he was promoted to the Major and Complex Loss (MCL) Division and was a protégé studying under a senior EGA. He was also selected and attended Sedgwick's Generation Next / EGA Training. Following his time with Cunningham Lindsey/Sedgwick, Sean again joined with JBA as an Executive General Adjuster in 2019.
