BIOGRAPHY

Jazz first began in the industry in 2010 at RSA a domestic claims handler, with a view to progress into the Loss Adjusting department.

After a year, Jazz was promoted to an internal Claims Specialist before moving to a external loss adjusting firm, Davies Chartered Loss adjusters, where he progressed his career as a junior Adjuster. Jazz then moved to Cunningham Lindsey (now known as Sedgwicks), where he continued to develop his knowledge in the commercial property department.

Following a number of years at Sedgwicks he moved on to Crawford and Company where Jazz continued in the commercial adjusting department. Now a proud member of the Private clients team within McLarens where he is also continuing his CILA studies and developing as an adjuster.

Jazz is also involved with the association of Chartered Institute of Loss Adjusting.
