BIOGRAPHY

Upon graduating with a degree in 2011, Rob joined QBE insurance company. In 2025, Rob joined the McLarens Construction & Engineering specialty team. Rob has broad experience of claims handling across property, motor, disease and personal injury losses. In 2018, Rob specialized in handling construction and engineering claims including losses occurring on major project policies placed in the Lloyds market, along with international claims in different territories. He has extensive knowledge of handling construction contract works, engineering All Risks claims, DSU, construction liability and plant losses. Rob is CERT CII qualified and currently studying to gain CILA qualification. He is married with two children. He is a keen golfer and follower of Bradford City football club

Association Involvement: CII – Chartered Insurance Institute
