Manufacturing
Municipalities
Casualty
Property
Catastrophe Response

QUALIFICATIONS

- BA (Hons.)

BIOGRAPHY

Trevor is a highly experienced Chartered Loss Adjuster who trained with Robins Davies and Little before moving to Graham Miller Hendon/Watford for managerial experience, and subsequently to Kuala Lumpur, Malaysia, for international management experience post-qualification.

On his return, he worked as a home-foreign adjuster from overseas bases in Cape Town, Buenos Aires, and Miami. His expertise in natural catastrophe claims led to lengthy secondments in the Caribbean, Christchurch (New Zealand), and Queensland (Australia), where he handled and managed hurricane claims as well as four major earthquakes and severe flooding claims in 2022.

Throughout his career, Trevor has gained a deep understanding of handling and managing large and complex claims across diverse markets, working with different cultures and approaches to insurance claims.

He has also provided desktop reviews of associates' reports on losses intended for the London Market from countries across South America and beyond. In addition, he edited reports for distribution into the London Market while mentoring overseas colleagues in report writing to help develop their skills.
