ADJUSTER EXPERIENCE

26 years

BIOGRAPHY

Juan Carlos is a Chemical Engineer with extensive experience in the insurance industry, particularly as a Senior Loss Adjuster for insurers in Colombia, Ecuador, Venezuela, and Central America, as well as the reinsurance market. He has coordinated and adjusted claims across property, engineering, machinery, and third-party liability lines, and has also handled catastrophic losses. His background combines strong technical knowledge with regional expertise in complex claims management.

NOTABLE ASSIGNMENTS

- Polymer Manufacturing Plant: Flood damage to buildings, processing equipment, and goods (USD 5 Million)
