Claims Management

## ADDITIONAL EXPERTISE

Field Services, Auto & Heavy  
Equipment

## LANGUAGE SKILLS

Spanish, English

## BIOGRAPHY

He began his professional career in the insurance industry in 2020, shortly after graduating as a Mechanical Engineer. Since then, he has built a solid track record in loss adjusting, starting with comprehensive training across multiple areas of the sector. This early experience provided him with a broad understanding of the business and allowed him to later specialize in engineering claims, catastrophic events, and overall property loss management.

## NOTABLE ASSIGNMENTS

- Hurricane IOTA, San Andrés Islands (2021) First response adjuster following the event. Conducted initial inspection visits and adjusted multiple losses on site.
- Hurricane OTIS, Acapulco (2023) Led the adjustment of mechanical and electrical losses at the Acapulco International Airport.
- Mining Dredge Overturn, El Bagre, Colombia (Year unspecified) Adjusted the loss involving the capsizing of a mining dredge, which resulted in total asset loss and three fatalities.
- Colombian National Riot, Bucaramanga (2023) Handled extensive damage to public transportation infrastructure, including buses, buildings, and stations.
- Frontera Energy Facility Incident, Colombia (2024) Adjusted major property damage after local trespassers destroyed critical infrastructure.
- Gas Gibraltar Fire, Saravena, Colombia (2025) Managed claim involving fire damage to the hot oil processing area of a gas processing plant.
- Ocesa & Cenit Pipeline Claims (Multiple Years) Oversaw multiple claims related to pipeline ruptures, landslides, and guerrilla attacks.
