**2025 Cub Crafters Carbon Cub EX, N952SA, S/N: CCK-1865-1088**

## TENDER CONDITIONS

The salvage of the above aircraft is offered in a damaged condition for public tender, on an “as- is, where-is” with all faults basis subject to these Terms and Conditions and Salvage Tender Agreement. **In particular, please read the section “Important Terms and Conditions” at the back of the Agreement.**

**Date of Loss:** 7/7/2025

**Loss Location:** Mountain Top Location - Del Norte, CO 81132

**Occurrence:** It was reported that on July 7, 2025, the insured was flying cross country flight from Austin, TX to California. The insured departed KRCV, Del Norte, CO in a northbound direction at about 9:15 MDT initially climbing to 10,500 MSL. En route the insured decided to circle a mesa top and slow to see it again. The insured slowed to approximately 60 knots and descended to 100’ AGL for overflight. While overflying the mesa, the insured could see that the terrain rose gradually on three sides and applied full power to climb but failed to neutralize the flaps. Seeing that he was unlikely to clear the trees straight ahead, the insured made a slow turn to the right to overfly a saddle area. In overcrossing a stand of trees, either the right tire, or right wing brushed a tree tip which caused the aircraft to stall to the right at which time the aircraft rapidly descended approximately 60’ in a right turning direction and culminated in ground impact.
