Marine  
Commercial Property  
Retail  
Hospitality  
Manufacturing

### ADDITIONAL EXPERTISE

Cyber incidents

### ADJUSTER EXPERIENCE

10 Years

### BIOGRAPHY

Justinas is a Chartered Accountant with ten years of experience in forensic accounting. He focuses on quantifying insurance claims, particularly in areas such as business interruption, cyber attacks, product recall, and energy losses.

He has worked on both sides of the claims process—supporting insurers as an independent forensic accountant and assisting insured businesses with claim preparation. This dual experience gives him a clear understanding of the challenges and expectations involved.

Justinas has supported both large multinational companies with significant losses and smaller local businesses with more modest claims. His work spans a variety of industries, from hospitality and catering to renewable energy and maritime shipping.
