ADJUSTER EXPERIENCE

27 Years

BIOGRAPHY

Dennis Reyes Castillo is a Mechanical Engineer and Loss Adjuster with extensive expertise in property and engineering claims across both local and international markets. His portfolio includes machinery breakdown losses in the Energy, Mining, Cement, and Steel Manufacturing sectors, as well as equipment and process-related claims in Food and Canned Manufacturing. He has also managed electronic equipment claims in Telecommunications, alongside significant exposure to Marine and Casualty losses.

He began his adjusting career with two international adjustment companies in the Philippines, where he developed strong technical and analytical skills in claims handling and loss assessment. He later enhanced his professional expertise with a British adjustment company in Saudi Arabia, managing large-scale and technically complex claims across diverse industries.

With a dual foundation in mechanical engineering and loss adjusting, Dennis brings a unique combination of technical proficiency and practical claims management experience. He is an ordinary member of the Chartered Institute of Loss Adjusters (CILA) and the Philippine Institute of Loss Adjusters (PILA).

INDUSTRY CERTIFICATION

Certificate in Basic Non-Destructive Testing (NDT)

QUALIFICATIONS

Bachelor of Science in Mechanical Engineering - Mapua Institute of Technology, Certificate in Basic Non-Life Insurance Course - Insurance Institute in Asia and the Pacific, Awarded IFCE Qualification (Insurance Foundation Certificate) Kingdom of Saudi Arabia, Certificate in Engineering Insurance - Insurance Institute in Asia and the Pacific
