ADJUSTER EXPERIENCE

17 years

BIOGRAPHY

With extensive experience in loss adjustment, Melbe specializes in complex property, engineering, and casualty claims across diverse industries. My expertise encompasses detailed building and its contents assessments along with casualty claims involving third-party injuries.

His professional journey includes pivotal roles at two prestigious loss adjustment firms in the Philippines, followed by valuable experience at a Singapore-based company where he handled multinational claims portfolios. His career path also includes serving as a specialized remote reinsurance claims analyst for a New Jersey, USA -based reinsurance company, providing critical back-office support while operating from the Philippines.

Throughout his career, he has successfully managed claims across multiple business sectors, consistently delivering thorough assessments that balance client interests with fair claim resolution. His international experience has equipped him with comprehensive knowledge of regional insurance frameworks and cross-border claim complexities.
