BIOGRAPHY

Nicolas Chuang joined McLarens in 2024, following prior experience as a Regional Sales Engineer and Manufacturing Engineer.

Leveraging his technical background and analytical approach, he has managed a broad range of claims across property, construction, engineering, and liability. His work spans fire and explosion incidents, sprinkler failures, mechanical breakdowns, water ingress, motor impact damage, and third-party liability disputes. Nicolas's portfolio includes investigations involving major hospitals, hotels, manufacturing facilities, waste-management plants, museums, construction sites, and commercial buildings.

He is committed to providing clear, practical assessments to support insurers and clients in resolving claims efficiently.

NOTABLE ASSIGNMENTS

- Water damage to digital museum – USD 3 Million
- Fire damage to waste management facility – USD 300k

INDUSTRY CERTIFICATION

- NIL
