Dip CII accredited

BIOGRAPHY

James is an Executive Adjuster who entered the insurance profession in 2000. During this time, he has been employed in a variety of technical roles for dedicated liability practices throughout the North West.

James current portfolio comprises a general mix of personal injury, construction risks, property damage, real estate and business interruption claims. He has expertise in multiple facets of insurance, particularly technical, high value adjusting but can also engage in bordereaux preparation, triangulation, client liaison, monitoring work-flow and act as a technical referral point for his colleagues and clients. During this time, he has dealt with a significant number of cases from “cradle to grave”, obtained witness statements, provided legal strategy guidance, assessed quantum, negotiated claims and provided insight on risk management issues.

Of utmost importance to him is offering fair advice, reducing costs/exposure wherever possible and being receptive to the needs of the client. He has successfully defended a high level of spurious claims and achieved excellent results on those cases that were ultimately settled.

James is also involved with The Chartered Insurance Institute and The Chartered Institute of Loss Adjusters.

NOTABLE ASSIGNMENTS

- Large variety of real estate/property damage claims including a loss in Paris, France with a value of (GBP 2.5 Million)
- Catastrophic UK property claims, one with an approximate value of (GBP 1.3 Million)
- Has experience running casualty accounts for multiple Insurer clients, which incorporate large excess deductibles, and significant aggregate claims values.
- Multiple casualty claims with values regularly exceeding (GBP 500,000)
