ADJUSTER EXPERIENCE

19 years

BIOGRAPHY

Jonathan graduated in 1994 with a 2:1 Honors degree in Building, Engineering and Management from the University of Brighton.

Jonathan began his career in private housing / property development before entering the Insurance sector in 2006 as a Subsidence Contract Manager and subsequently Technical Manager for Crawford and Company. In 2017, he was appointed Regional Manager (Surveying) with responsibility for a team of 10 Chartered Surveyors and Chartered Builders. After 2 years in the role, Jonathan decided that he missed the cut and thrust of project management, and moved to a Senior Surveyor role with Stream, before joining McLarens as a Loss Adjuster – Surveyor in April 2021.

Since entering the Insurance sector, Jonathan has built up considerable experience in subsidence adjusting, surveying and project management, with numerous claims in South East England and the Channel Islands, with a multi-million pound portfolio of HNW, commercial and private clients.
