BIOGRAPHY

Peter is a Chartered Loss Adjuster with over 30 years' experience in Loss Adjusting in both New Zealand and Australia, following underwriting roles in his early career.

Peter is Head of Specialist Services New Zealand, a role he is eminently suited to due to his extensive experience across specialist areas of loss and his leadership in catastrophe events in New Zealand, Australia and the Pacific.

Peter has adjusted claims in New Zealand, Fiji, Samoa, Tonga, American Samoa, Australia and England. Peter also has significant experience in catastrophe response management, having held team leadership and management roles for events in New Zealand and across the Pacific Islands.

In adjusting large and complex claims, Peter identifies the key issues and hurdles that may arise and then strategises and implements an appropriate plan to handle the claim.

Peter's focus is on communicating clearly to keep all parties aware of progress and managing expectations through each phase of the loss adjusting process, through to successful resolution.
