BIOGRAPHY

Stuart began his career working for a large composite Insurer before entering the Loss Adjusting profession in 1988 with Thomas Howell Selfe & Co in Cardiff. Stuart gained broad experience dealing with a wide selection of both domestic and commercial claims.

In 2003, he moved to Cunningham Lindsey, where he handled commercial claims, higher value domestic, and high net worth losses. He also assisted across the U.K. in various weather-related events including the Cumbria floods both in 2009 and 2015. Stuart became a valued member of the team predominately dealing with commercial and agricultural losses. In April 2017, Stuart joined McLarens, bringing with him a wealth of experience and is responsible for commercial losses in the South West region.
