Business Development
Relationship Management

BIOGRAPHY

Rebecca began her career in insurance as a claims handler for McLarens Toplis in January 2001. Shortly after McLaren Dick & Co were bought by Capita she followed one of the directors to Reich Insurance Brokers in 2003 and spent the next 19 years in broking, moving on to also work for Jelf and Verlingue. Over that time she progressed from Account Handler to Client Director with a focus on the hospitality sector.

Rebecca returned to claims when she joined McLarens in March 2022 and takes overall responsibility for our broker relationships around the UK. She is also the lead for our Hospitality Proposition which she launched in 2024.
