

SALVAGE TENDER

1979 Cessna 340, N535KW, S/N: 340A0710

TENDER CONDITIONS

The salvage of the above aircraft is offered in a damaged condition for public tender, on an “as-is, where-is” with all faults basis subject to these Terms and Conditions and Salvage Tender Agreement. **In particular, please read the section “Important Terms and Conditions” at the back of the Agreement.**

Date of Loss: 3/16/2026

Loss Location: Glacier Park International Airport (KGPI) in Kalispell, Montana

Occurrence: The aircraft was under Instrument Flight Rules and was encountering known moderate rime icing. The holding period was long enough to allow for a significant amount of ice to build on the airframe. During the approach and landing, the pilot did not account for the added weight of the accumulated ice. The approach and landing were conducted at a normal speed, and the pilot retarded the throttles at the usual altitude. The insufficient speed for the increased weight and the reduction of the throttles at the normal altitude caused the aircraft to settle abruptly, resulting in a hard landing.
