

**McLarens | Global**  
Construction & Engineering

## Global Construction & Engineering

**Within McLarens, we operate a range of specialist practice groups including Construction and Engineering, which spans Property, Liability and associated Business Interruption covers.**

Our Global Construction and Engineering Group consists of several industry leaders who have handled claims arising from some of the highest profile incidents occurring in recent years.

Major construction and infrastructure claims call for multi-skilled specialists who are able to respond rapidly and decisively, however large or complex a loss.

Whether under annual or project specific insurance policies, our Global Construction & Engineering Group of chartered loss adjusters, building surveyors, quantity surveyors, engineers, legal experts and accountants have the expertise required to manage any loss arising from this specialist industry sector.

**McLarens employ specialist construction and engineering adjusters across our global network of 127 owned offices in 40 countries, with extended coverage provided by long-term affiliate partners.**

### Local Expertise

McLarens is trusted by clients worldwide to deliver the best in claims management, from loss adjusting and auditing services to pre-risk and damage surveying. Throughout our extensive global presence, our reputation for quality is built on the expertise and local knowledge of our stable teams of loss adjusters, directed by market leading figures.

### Regional and London Based Expertise

Our local experts are supported by our regional and London-based 'Home Foreign' Construction specialists who ensure quality services are provided to local insurance markets and their customers together with reinsurers and international markets.
