BIOGRAPHY

Tapan Sharma currently serves as the Vice President with McLarens India. With over 15 years of expertise in loss assessment and adjustments across Property, Construction & Engineering, Miscellaneous, and Marine claims, he has successfully managed cases ranging from standard fire and allied perils involving industries, warehouses, shops, and malls, to complex construction losses under Contractor's All Risk (CAR) and Erection All Risk (EAR) policies, as well as machinery breakdown losses under engineering policies.

He has a proven track record in catastrophic loss management, having led multiple large-scale assignments involving natural disasters and industrial incidents, often requiring rapid mobilization, technical expertise, and multi-stakeholder coordination.
