

Forensic Accounting

McLarens' Forensic Accounting team delivers strategic financial insight across major and complex insurance claims and support to legal and corporate clients.

From the earliest stage of a loss, we work alongside insurers, brokers, & other experts to interpret policy response, analyse financial records and develop practical mitigation strategies that reduce exposure and shorten claim duration. Combining advanced financial modelling, sector expertise and hands-on claims experience, we provide clear analysis of quantum and financial impact.

We challenge assumptions, test loss methodologies and align calculations with policy intent to deliver accurate, defensible and timely outcomes. Our integrated model supports early reserving accuracy and disciplined claim management.

Expertise across complex losses

- Business Interruption
- Cyber & Technology
- Fidelity, Fraud & Financial Lines
- Product Recall & Liability
- Stock loss quantification and valuation
- Tax Audit
- Catastrophe Response
- Litigation & Expert Witness
- Recovery

Why McLarens Forensic Accounting?

- Dual-qualified accountants and chartered loss adjusters
- Experience across major and complex claims
- Advanced financial modelling and data analytics capability
- Strong policy interpretation expertise
- National team with sector-specific knowledge
